

Small Grants Programme Guidelines & Application Form

The Wimbledon Guild is a dynamic charity with a longstanding heritage that aims to improve the lives of people in Merton by empowering the development of mental, physical and emotional wellbeing. The Wimbledon Guild provides support from the heart of the community with a range of services. These include: small grants programmes, a long-established talking therapies service, befriending, pre-and post-bereavement support and a variety of activities that encourage older people to get the most from life and live independently and confidently.

Welfare Grant decision making

The Guild Welfare team regularly submits Small Grant Applications for approval and allocation of funds which are held and administered by the Guild. Some funds are specifically for people with certain conditions; young people or people with armed-forces connections. Funds are limited, so in order that the grants are given to those whose need is the greatest, the Welfare team must have all relevant information about the applicant.

The information required will be discussed by the Welfare Team, but will remain confidential to them, unless prior permission to approach other funding agencies is obtained from the applicant.

Applications may be made by individuals or by their social/health worker etc. with their consent. Applications must where possible be supported by this professional or other key worker (whose name and contact details should be included on the form).

Guidelines for small grant applications

The Guild grants programme is designed to assist people who are in need and have exhausted all other avenues of help; grants are generally modest (up to about £300 for white goods and about £75 for primary school uniforms). The Welfare team may also approve a contribution towards a larger request, providing that balances are forthcoming from other funders. Examples of recent awards include replacement cookers, beds, children's clothing etc.

The Guild occasionally has available donated second-hand goods which can be offered to applicants via the same form.

1. Please note that there is a considerable demand for grants and it is therefore vital that you give us all the relevant information regarding an application so that we can prioritise the allocation of funds.
2. Funds are only available to residents of the LB Merton. At any given time, specific funds will be restricted to particular areas or needs. That may limit our ability to help.
3. It can help us to access funds if the applicant has been directly involved in or is a dependent or a descendant of someone connected to a war effort (e.g. WW2, Falklands, and Iraq) or in the case of WW2 a reserved occupation such as teaching, fire-fighters etc.

4. Similarly it might help if the applicant or a related beneficiary has a breathing disorder.
5. Continuing funding, including on-going debts and arrears, will not be considered nor will improvements to Council and privately rented property.
6. Grants will not normally be given to anyone who has been a recipient in the previous year.
7. All other sources of statutory funding and assistance must have been explored and why help is unavailable detailed on the application form.
8. Supporting key workers etc. should provide a letter detailing their involvement, the applicant's circumstances e.g. degree of vulnerability/social exclusion and the reasons why they support the application. Please include evidence of financial situation such as relevant bills, benefits and bank statements (minimum one month).
9. The applicant must state the cost and source of items and whether or not second-hand goods would be considered.
10. Application forms are processed as quickly as possible. The turnaround of an application is usually within a week of the application form arriving. However, it is dependent on all relevant supporting information having been supplied and any additional enquiries having been promptly resolved.
11. Cheques will normally be made payable to the supporting organisation e.g. charity or social services, rather than to an individual applicant.
12. The Wimbledon Guild is committed to equal opportunity and applicants are encouraged to complete the statement on the final page. This will be removed on receipt and processed. It has no bearing on the decision-making process of the application itself. Data collected will be analysed for the benefit of the Guild and its funders to ensure we are reaching all sectors of Merton's population.
13. Should an application be successful, the beneficiary should expect to be contacted by the Wimbledon Guild as part of the follow up process; usually within 3 months of receipt of the grant.

Application Form

The following information is Private and Confidential
 (please complete all sections)

Personal Details							
Title:		First Name:		Surname:
