

Working with older people from across the borough of Merton, we are here to support and assist you in leading a happy, healthy and fulfilling life.

You can contact the WG Outreach team to talk about any concerns or issues you have or to find out about local activities and benefits available to you.

Whether you are experiencing financial distress or feel isolated, or want to get fit and healthy.

We can help!

WG Outreach are here for you.

Advice & Information

WG Outreach is the hub for local knowledge. We work with many organisations, charities, church groups, schools and lots of others.

For information or advice about social services, travel services or leisure and exercise activities contact us to find out what we can do for you.

Travel Services

Many people find public transport daunting especially in the rush hour – or when you need to get to a GP or hospital appointment. WG Outreach can partner you with a travel buddy to build your confidence on buses and trains. We can also assist with Taxicard and Dial-a-Ride applications.

We want you to be happy and healthy living your life exactly how you'd like to.

Financial support

Financial distress, applying for benefits or knowing if you are receiving all you should be can be overwhelming. If you don't know where to turn, the WG Outreach team are easy to talk to and will assist you in finding the right solution to your problem.

Befriending

Many of us find we spend more time on our own and it can make you feel lonely.

WG Outreach can put you in touch with one of our befriending volunteers who can visit, call for a chat or even pop out with you.

"You helped us so much. You were there when my father needed you. Thank you."

Technology Sessions

"We all find it hard to keep up with the changes in technology."

Phones, tablets and computers are an easy way to keep in touch and to communicate with people. Reconnecting with relatives or old school chums is simple through social media like Facebook.

We run short, friendly sessions to help you navigate around the internet and see what great benefits it has for you.
